Getting It Up! The Fascinating World of Marine Salvage

Some ships come to grief, and when they do the salvage industry is there to right the wrongs.

The Working Harbor Committee's annual spring program will showcase this little known, but vitally important, arm of the maritime industry with dramatic films of actual salvage operations and talks by some of the salty professionals who work in the industry.

Tuesday 6 May 2014

6 – 9 p.m.

Community Church of New York

40 E. 35th Street

New York, NY 10016

Refreshments will be served.

Films include:

Historic footage on the raising of the SS Normandie which burned and sank at Pier 88 North River in 1942, the dismantling and salvage of the freighter, New Flame, off the coast of Gibraltar, and largest salvage operation in history--the raising of the cruise ship Costa Concordia last September off Giglio, Italy.

A panel of three salvage industry professionals will give a brief overview of the salvage industry, describe their work as salvage masters in some hands-on projects, and answer questions.
